

CORPORATE SESSIONS

Financial education for your people, from someone who does this for a living.

Most people at work have never had anyone explain money to them properly. They have a pension they have never looked at, a will they have not written, and a nagging sense that they should be doing something. One hour with someone who will answer the awkward questions changes that, and it costs the company almost nothing.

SESSIONS DELIVERED FOR TEAMS AT

Deloitte · KPMG · EY · DLA Piper · Standard Chartered · DP World · Arup · Honeywell

and most of the international schools and nurseries in Dubai

CHOOSE A SESSION

Financial planning, from scratch

The one most companies ask for. Where your money actually goes, what an emergency fund is for, the order to do things in, and what to do with what is left. No jargon and no products.

Investing, explained properly

What markets do over a long stretch, why timing them fails, the difference between risk and volatility, and what charges quietly cost you. People leave able to read their own statement.

Family and estate planning

Wills, guardianship, and what happens to your assets if you die while living abroad. The session people thank you for later, and the one nobody organises for themselves.

HOW IT RUNS

- Forty five minutes to an hour, plus questions, which is usually the best part.
- In person in Dubai, or by webinar anywhere.
- Lunch and learns, benefits days, onboarding weeks, or a standalone evening session for partners and spouses.
- Graduate intake and senior partners need different sessions. Tell me who is coming and I will tell you which one fits.

WHAT I NEED FROM YOU

- A room, or a webinar link.
- A rough headcount.
- A sense of the audience and how long you can give me.

WHAT IT COSTS

- Tell me what you have in mind and we will sort it out. For most companies this runs as a staff benefit rather than a line item.

Nothing is sold in the room. No pitch, no sign-up sheet, no products mentioned. If anyone wants to talk afterwards they come to me, and plenty do. That is the whole arrangement, and it is why companies have me back.

Ari Vinotharajah

Independent Financial Adviser · Dubai
CISI Investment Advice Diploma (Level 4)

Ask about a session on the site

Ari Wealth is a brand division of NEBA Private Clients Financial Advisors LLC, regulated by the Securities and Commodities Authority (Reg. 608025). Sessions are educational. Nothing in them is personal financial advice, no products are promoted, and no attendee is asked to buy anything. The value of investments can fall as well as rise.
